

DEVERNOIS

LONDON

Collection Autumn/Winter 2020

Transition Pois

The sophisticated simplicity of polka dots, a timeless fashion statement, a sign of new adventures with elegance and timelessness.

Viscose, cotton and silk are soft and natural on the skin, fluid and supple on the body. The natural nuances illuminate the navy, while the camel greedily enhances this 'very chic' palette.

Rouge

From the knowledge and experience of over three generations, Milano knit and double-sided knit are showcased. Knitted in the best quality wool/viscose yarn and rigorously selected for its fineness; these pieces are developed, created and knitted in our workshops and are adorned with a tonic and innovative blend of colours.

Léopard

Individual pieces or, a total look - we uncover the panther jacquard. Trench coat, cardigan, knitted suit, the looks are all chic and daring, completed with essentials for the feminine wardrobe.

The reinterpreted striped sweater : knitted in our workshops, in extra fine Merino wool. The worked finishes of the cuffs show our attention to detail. A touch of nostalgia, we play the silhouette, school-style with our pleated sun skirt and oxford shirt.

Beige Dots

Our passion for design has led us to create a completely 100% French knitted jacket . The 'Vogue' jacket is knitted and made in our workshops in Roanne, in pure new wool, with a French yarn produced in Brassac. The wool comes from a sheep farm in Arles.

A piece that has never existed before due to the complexity of its design and manufacture. It is thanks to the energy, love and experience of our design and production teams that this jacket has now arrived for you to enjoy.

Prince De Galles

A winter palette illustrated in rich and colourful jacquards, cosy and comfortable. The volumes are bold, by associating ample, enveloping and warm pieces with others, more fluid and structured.

The jacquard knit jacket, a chic accomplice in everyone's daily life, is an essential piece of our wardrobe, where comfort and elegance come together with style. The Irish jacquard is rethought and reinterpreted in aerial, soft and ecological yarns in wool and alpaca and developed in our French workshops.
